Table of contents

The PROTEKT company has been present on the market for nearly 30 years and is specialized in fall protection equipment.

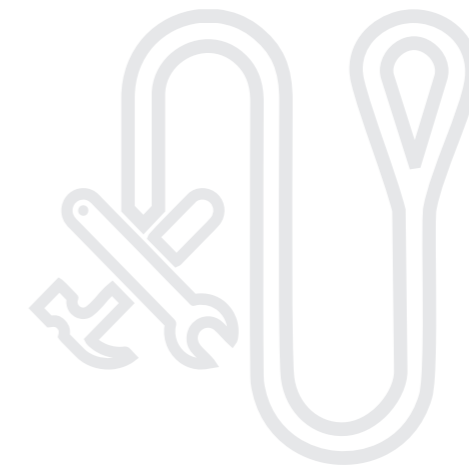

We focus mainly on safety and comfort of use of our products. This equipment is used in many industries for works at a height, depth and by rescue services and arborists (tree surgeons). Our offer includes both personal fall protection equipment – full body harnesses, energy absorbers, lanyards, and permanent anchorage systems.

Knowledge and skills of our personnel and professional research and manufacturing facilities ensure keeping the highest quality standards. At the same time, we try to offer products at attractive prices. All our products hold European certificates confirmed by both Polish and foreign notified bodies (including but not limited to CIOP, IPO, APAVE).

TOOL LINKS HOLDERS BAGS

according to ANSI/ISEA 121-2018

ANSI/ISEA 121-2018 Important sections of standard in question:

American National Standard for Dropped Object Prevention Solutions.

This standard establishes minimum design, performance, testing and labelling requirements for solutions that reduce dropped objects incidents in industrial and occupational settings. Dropped objects include hand tools, instrumentation, small parts, structural components and other items that have to be transferred and used at heights. These objects have the opportunity of becoming dropped objects potentially resulting in struck-by injury or fatality or damage to equipment.

5.3.2 Test Equipment

The test equipment shall consist of the following:

- a) Tool attachment sample.
- b) Test cable of fabricated steel with swaged looped ends measuring a minimum of twice the length of the manufacturer's allowable maximum tether length for the tool attachment, plus 60cm.
- c) A rigid weight, weighing a total of the specified test factor listed in test schedule.
- d) A test fixture designed and built accordingly to allow installation onto the fixed anchor point.

If a specific tool size range or geometry is detailed for use with the tool attachment, the test weight or test fixture shall mimic that tool's characteristics.

5.3.3 Dynamic Test Procedure

Each test sample that requires a dynamic test shall be subjected to a minimum of 3 drops without replacement or adjustment of the sample. Each test sample shall be tested within 5 minutes of removal from conditioning. If testing cannot be completed within the allotted time, samples shall be reconditioned between drops.

One of the following methods shall be used:

- a) Attach one end of the test cable to the connection point on the tool attachment and the other end to the fixed anchor point. The test weight shall be positioned in a way to expose the weakest orientation of the tool attachment.

- b) Install test fixture onto fixed anchor point. Attach the tool attachment to the test fixture in a position that exposes the weakest orientation of the tool attachment. Attach one end of the test cable to the tool attachment and the other end to an independent test weight.

Perform a drop with a test weight equal to the manufacturer's published capacity with a free fall distance of twice the specified test tether length allowed by the manufacturer. The test weight shall be released from a point no more than 152 mm horizontally from the centre of the fixed anchor point. The test weight shall be orientated in a way that allows the weight to experience a straight fall. Follow this procedure for two additional drops. A total of three drops shall be recorded. (Refer to figure.)

ELASTIC LANYARD

Elastic belt tool lanyard protecting against dropping of tools with clip for adjustment designed for left-handed users.

Technical data:

Material link:	polyester
Maximum load:	0,5 kg
Maximum load:	max. 115 cm
Static strength:	35daN / 3 min. without failure

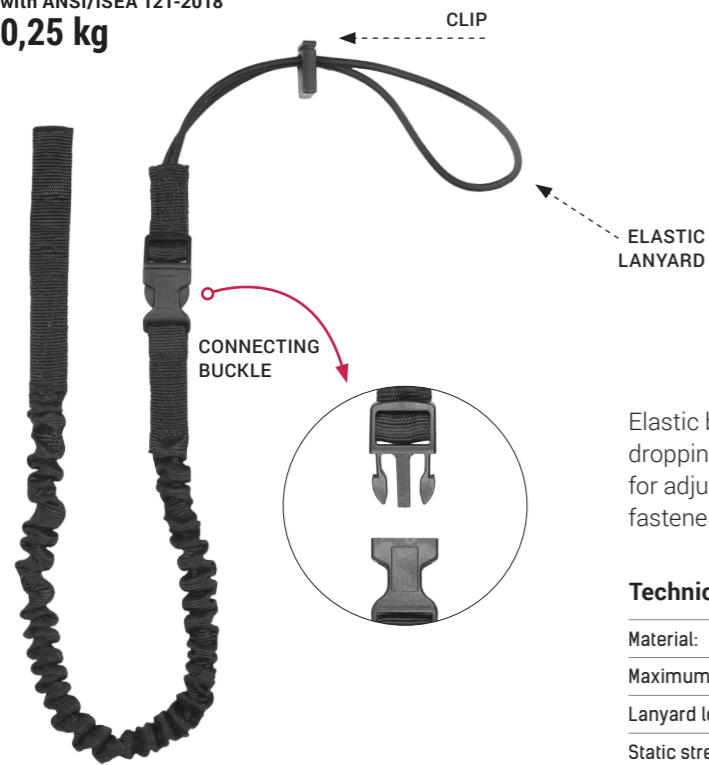

AY 022

Tool lanyard

tested in accordance with ANSI/ISEA 121-2018
0,25 kg

Ref no.: AY 022

Elastic belt tool lanyard protecting against dropping of tools. Equipped with a string and clip for adjustment and connecting buckle with Velcro fastener.

Technical data:

Material:	polyester
Maximum load:	0,25 kg
Lanyard length:	max. 150 cm
Static strength:	35 daN / 3 min. without failure

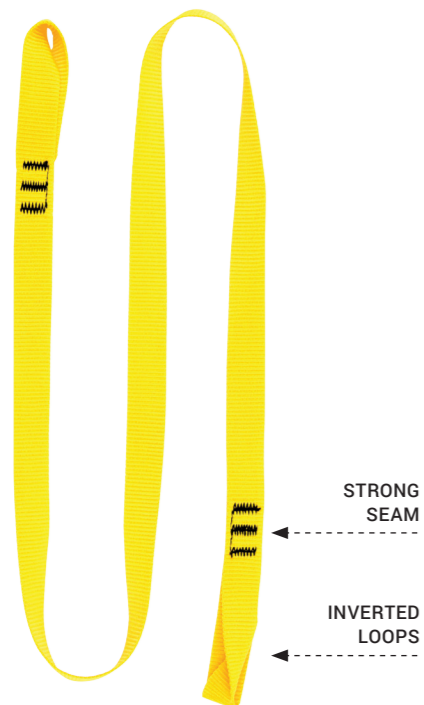

AY 051

Tool lanyard

tested in accordance with ANSI/ISEA 121-2018
4 kg

Ref no.: AY 051

Tool lanyard – protection against dropping of tools, e.g. chainsaw. Strong seams, inverted loops – always open.

Technical data:

Material:	polyester
Webbing width:	25 mm
Length:	13 m
Static strength:	5 kN
Maximum load:	4 kg
Safety Factor:	7:1

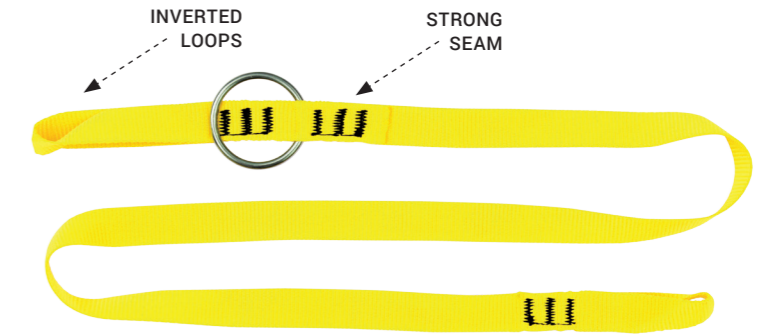

AY 052

Tool lanyard

tested in accordance with ANSI/ISEA 121-2018
4 kg

Ref no.: AY 052

Protection against dropping of tools, e.g. chainsaw or other accessories. Strong seams, handy inverted loops.

Technical data:

Material:	polyester
Webbing width:	25 mm
Length:	13 m
Static strength:	5 kN
Maximum load:	4 kg
Safety Factor:	7:1

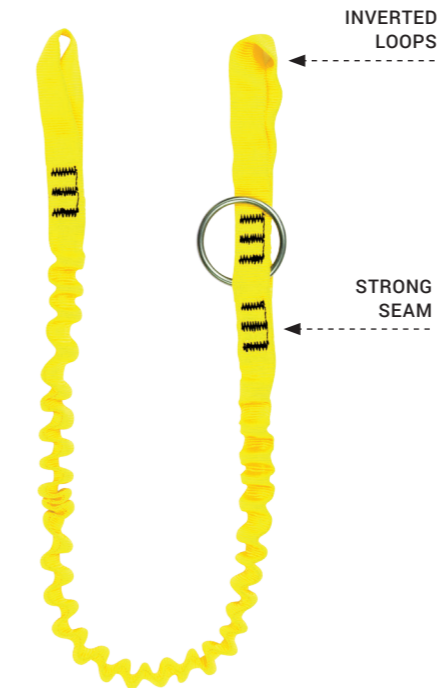

AY 053

Tool lanyard

tested in accordance with ANSI/ISEA 121-2018
4 kg

Ref no.: AY 053

Tool lanyard – protection against dropping of tools, e.g. chainsaw. Strong seams, handy inverted loops.

Technical data:

Material:	polyester
Webbing width:	25 mm
Length:	13 m
Static strength:	5 kN
Maximum load:	4 kg
Safety Factor:	7:1

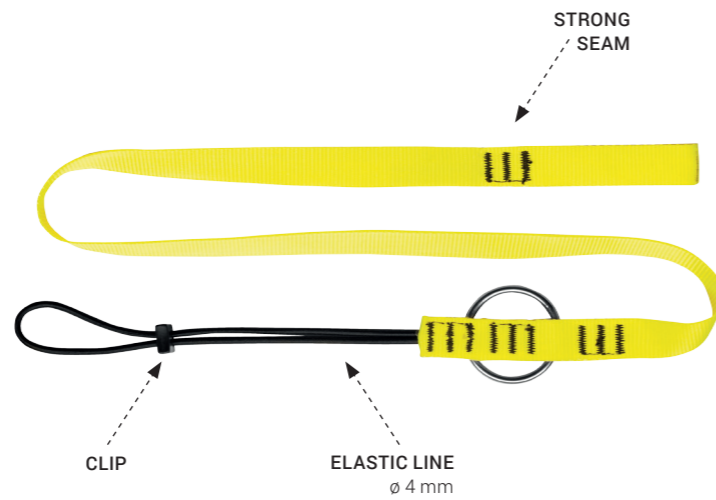

AY 054

Tool lanyard

tested in accordance
with ANSI/ISEA 121-2018
5 kg

Ref no.: **AY 054**

Technical data:

Material:	polyester
Webbing width:	25 mm
Length:	1.3 m
Static strength:	600 N
Maximum load:	5 kg
Safety Factor:	7:1

Tool lanyard – protection against dropping of tools, e.g. assembly wrenches. Strong seams, equipped with elastic line at one end.

AY 057

Tool lanyard

tested in accordance
with ANSI/ISEA 121-2018
5 kg

Ref no.: **AY 057**

Technical data:

Material:	webbing - polyester carabiner - steel
Webbing width:	25 mm
Length:	1.3 m
Static strength:	600 N
Maximum load:	5 kg
Safety Factor:	7:1

Tool lanyard – protection against dropping of tools, e.g. assembly wrenches. Strong seams, equipped with elastic line at one end, and steel detachable carabiner with opening of 10 mm at the other.

AY 058

Tool lanyard

tested in accordance
with ANSI/ISEA 121-2018
5 kg

Ref no.: **AY 058**

Technical data:

Material:	webbing - polyester carabiner - steel
Webbing width:	25 mm
Length:	1.3 m
Static strength:	600 N
Maximum load:	5 kg
Safety Factor:	7:1

Tool lanyard – protection against dropping of tools, e.g. assembly wrenches. Strong seams, equipped with elastic line at one end, and steel detachable carabiner with opening of 7 mm at the other.

AY 059

Tool lanyard

tested in accordance
with ANSI/ISEA 121-2018
5 kg

Ref no.: **AY 059**

Technical data:

Material:	webbing - polyester carabiner - stainless steel
Webbing width:	25 mm
Length:	1.3 m
Static strength:	600 N
Maximum load:	5 kg
Safety Factor:	7:1

Tool lanyard – protection against dropping of tools, e.g. assembly wrenches. Strong seams, equipped with elastic line at one end, and stainless-steel detachable carabiner with opening of 7 mm at the other.

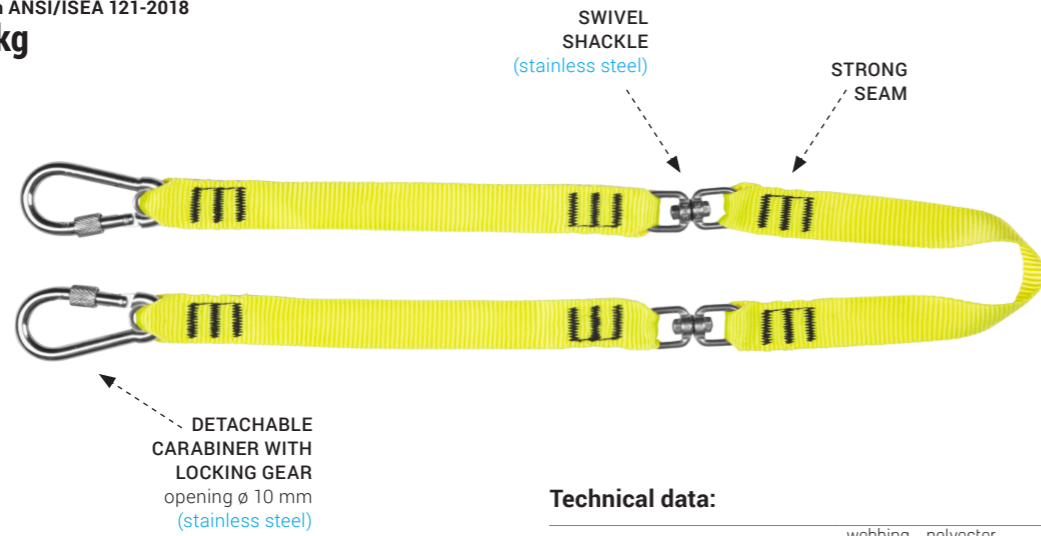

AY 060

Tool lanyard

tested in accordance with ANSI/ISEA 121-2018
3 kg

Ref no.: **AY 060**

Technical data:

Material:	webbing - polyester carabiner / swivel shackles - stainless steel
Webbing width:	25 mm
Length:	1.3 m
Static strength:	600 N
Maximum load:	3 kg
Safety Factor:	7:1

Tool lanyard connected by two swivel shackles (enabling 360° rotation) – protection against dropping of tools, e.g. assembly wrenches. Strong seams, equipped with stainless-steel carabiners with opening of 10 mm at both ends.

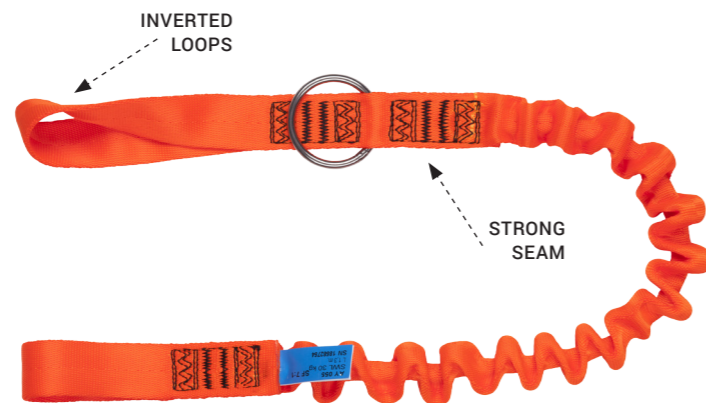

AY 055

Tool lanyard

tested in accordance with ANSI/ISEA 121-2018
30 kg

Ref no.: **AY 055**

Technical data:

Material:	polyester
Webbing width:	25 mm
Length:	1.3 m
Static strength:	5 kN
Maximum load:	30 kg
Safety Factor:	7:1

Elastic tool lanyard – protection against dropping of tools, e.g. power screwdriver or chainsaw. Strong seams, handy inverted loop.

AY 132

Tool lanyard

tested in accordance with ANSI/ISEA 121-2018
0,5 kg

Ref no.: **AY 132**

Elastic tool lanyard with carabiner. Protection against dropping of tools, e.g. assembly wrenches.

Technical data:

Material:	polyester
Webbing width:	64 cm
Maximum extension:	max. 125 cm
Maximum load:	0,5 kg

AY 133

Tool lanyard

tested in accordance with ANSI/ISEA 121-2018
1 kg

Ref no.: **AY 133**

Elastic belt tool lanyard with carabiner. Protection against dropping of tools, e.g. assembly wrenches.

Technical data:

Material:	polyester
Webbing width:	64 cm
Maximum extension:	max. 125 cm
Maximum load:	1 kg

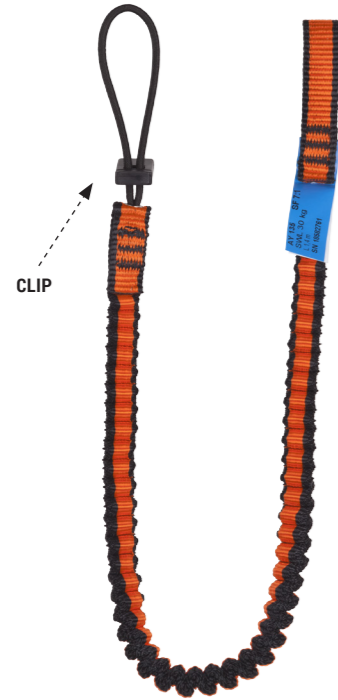

AY 135

Tool lanyard

tested in accordance
with ANSI/ISEA 121-2018
0,5 kg

Ref no.: **AY 135**

Elastic tool lanyard – protection against dropping of tools, e.g. assembly wrenches.

Technical data:

Material:	polyester
Webbing width:	64 cm
Maximum extension:	max. 125 cm
Maximum load:	0,5 kg

AY 153

Tool lanyard

tested in accordance
with ANSI/ISEA 121-2018
15 kg

Ref no.: **AY 153**

Elastic tool lanyard with handy inverted loop. Protection against dropping of tools, e.g. assembly wrenches.

Technical data:

Material:	polyester
Webbing width:	64 cm
Maximum extension:	max. 125 cm
Maximum load:	15 kg

2 kg

Ref no.: **AY 300**

AY 300 is a webbing tool holder fixed using Velcro fastener to a belt or straps of harnesses or full body harnesses. Provides optimum arrangement of tools which in turn improves working comfort. AY 300 enables connection of e.g. tool lanyard.

Technical data:

Material:	polyester webbing plastic holder
Webbing width:	40 mm
Max. load:	2 kg

AY 301

Tool holder

tested in accordance
with ANSI/ISEA 121-2018
2 kg

Ref no.: **AY 301**

AY 301 is a webbing tool holder fixed using Velcro fastener to a belt or straps of harnesses or full body harnesses. Provides optimum arrangement of tools which in turn improves working comfort. AY 301 enables connection of e.g. tool lanyard.

Technical data:

Material:	polyester webbing steel holder
Webbing width:	40 mm
Max. load:	2 kg

AY 302

Tool holder

tested in accordance
with ANSI/ISEA 121-2018
2 kg

Ref no.: **AY 302**

AY 302 is a webbing tool holder fixed using Velcro fastener to a belt or straps of harnesses or full body harnesses. Provides optimum arrangement of tools which in turn improves working comfort. AY 302 enables connection of e.g. tool lanyard.

Technical data:

Material:	polyester webbing plastic holder
Webbing width:	40 mm
Max. load:	2 kg

AY 303

Tool holder

tested in accordance
with ANSI/ISEA 121-2018
2 kg

Ref no.: **AY 303**

AY 303 is a webbing tool holder fixed using Velcro fastener to a belt or straps of harnesses or full body harnesses. Provides optimum arrangement of tools which in turn improves working comfort. AY 303 enables connection of e.g. tool lanyard.

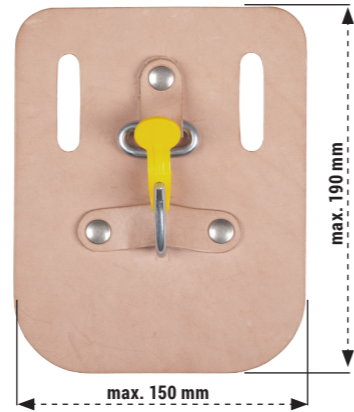

Technical data:

Material:	polyester webbing steel holder
Webbing width:	40 mm
Max. load:	2 kg

AY 061

Tool holder

Ref no.: **AY 061**

Tool holder for fixing to a belt at a harness, with webbing width from 40 to 50 mm.

Technical data:

Harness webbing width:	40-50 mm
Material:	leather
Dimensions:	150 x 190 mm
Weight:	126 g

AY 100

Tool holder

Ref no.: **AY 100**

AY 100 is a carabiner used as a tool holder, attached to straps of a harness or a full body harness to provide optimum arrangement of tools and in turn improve working comfort. AY 100 enables connection of tool lanyard also.

Note!
AY 100 is not personal fall protection equipment.

Technical data:

Weight:	25 g
Dimensions:	108 x 54 x 14 mm
Working Load Limit (WLL):	5 kg
Material:	polyamide, glass fibre, stainless steel
Breaking strength:	> 25 kg

AY 305

Electric screwdriver handle

Ref no.: **AY 305**

The AY 305 is an ergonomic handle used to prevent screwdrivers and similar tools from falling. Thanks to the steel clip, it can be attached to a tool belt with a lanyard.

Technical data:

Material:	polyester / clip - steel
Weight:	110 g
Tape width:	40 mm

AY 306

Handle measuring roll tape
3m / 5m

Ref no.: AY 306

AY 306 are new ergonomic handle measuring roll tape 3m/5m with Velcro fasteners. Thanks to the steel hitch we have the possibility of fixing e.g. to the tool belt.

Technical data:

Material:	polyester / clip - steel
Weight:	30 g
Tape width:	25 mm / 30 mm

AY 307

Handle measuring roll tape
5m / 10m

Ref no.: AY 307

AY 307 are new ergonomic handle measuring roll tape 5m/10m with Velcro fasteners. Thanks to the steel hitch we have the possibility of fixing e.g. to the tool belt.

Technical data:

Material:	polyester / clip - steel
Weight:	35 g
Tape width:	25 mm / 30 mm

Hip tool belt

Ref no.: **AY 200**

Hip tool belt fastened with Velcro fastener. Provides optimum arrangement of tools which in turn improves working comfort. AY 200 enables connection of e.g. tool lanyards.

Technical data:

Belt webbing width:	70 mm
Material:	poliester
Weight:	251 g

AY 210

Hip tool belt

nr kat.: **AY 210**

Hip tool belt fastened using connecting and adjusting buckle. Provides optimum arrangement and handling of tools which in turn improves working comfort.

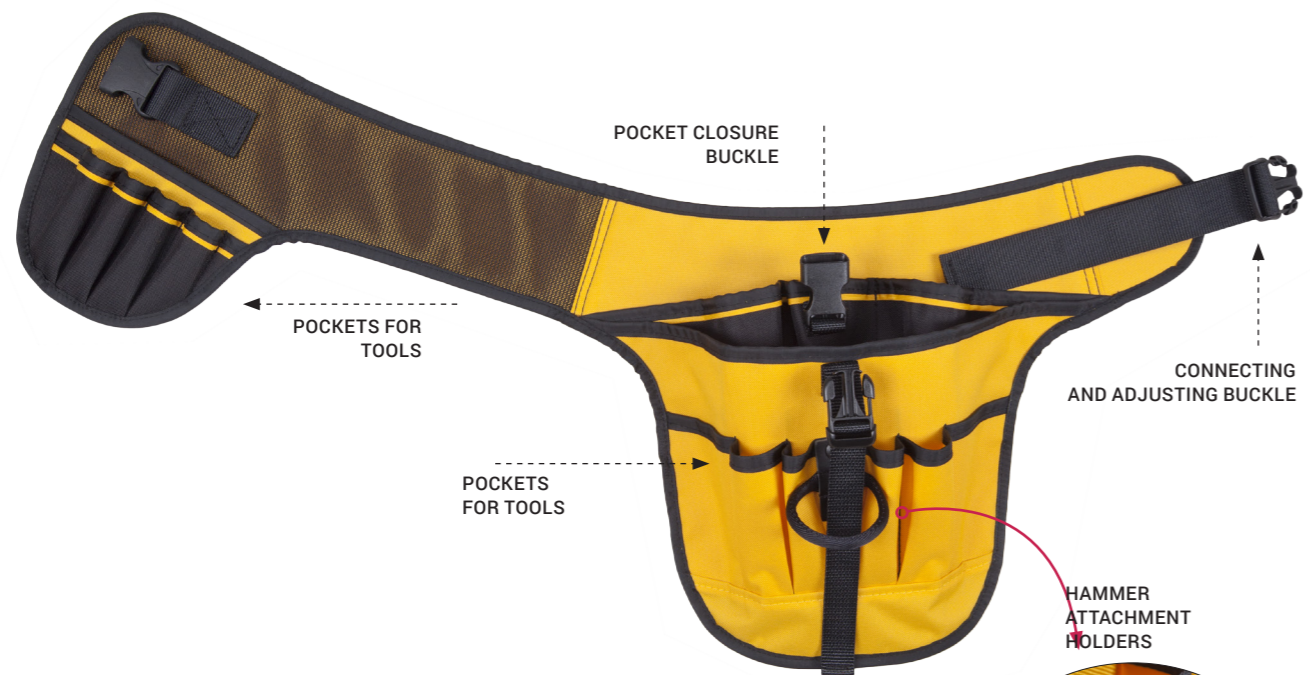

Technical data:

Material:	polyester
Weight:	420 g
Belt webbing width:	40 mm

AY 220

Hip tool belt

Ref no.: AY 220

Hip tool belt fastened using connecting and adjusting buckle. Provides optimum arrangement and handling of tools which in turn improves working comfort.

Technical data:

Belt webbing width:	40 mm
Material:	polyester
Weight:	560 g

TA 307

Tool bag

Ref no.: TA 307

**REINFORCED
BOTTOM
OF THE BAG!**

ATTACHMENT BUCKLE OF THE ADJUSTABLE SHOULDER STRAP

STIFFENED THE EDGES OF THE BAG

A large and comfortable bag with a reinforced bottom for carrying fitter's accessories made of durable Cordura. It has stiffened edges, which makes loading of tools easier. The bag also has an adjustable strap, so you can hang it over your shoulder.

Technical data:

Weight:	1,35 kg
Dimensions:	560 x 280 x 260 mm
Material:	polyester

TA 305

Handy tool bag

Ref no.: TA 305

FUNCTIONAL AND ERGONOMIC ARRANGEMENT OF TOOLS!

Handy tool bag for handling of assembly accessories, made of strong polyester. It has multiple pockets and compartments inside to ensure tools are in place. The bag has an adjustable strap for comfortable carrying on shoulder.

Technical data:

Weight:	1,0 kg
Dimensions:	375 x 260 x 90 mm
Material:	polyester

TA 304

Large tool bag

Ref no.: TA 304

LARGE CAPACITY AND STRENGTH!

Large and handy bag for handling of assembly accessories, made of strong polyester. It is equipped with multiple pockets and compartments both inside and outside to provide optimum arrangement of tools. The bag has an adjustable strap for comfortable carrying on shoulder.

Technical data:

Weight:	2,4 kg
Dimensions:	500 x 300 x 300 mm
Material:	polyester

TA 308

Tool basket

Capacity

17 liters

LITTLE BASKET WITH QUICK ACCESS TO DO TOOLS!

DURABLE FABRIC COVER

STRONG PLASTIC

Ø 210mm

Convenient tool basket for assembly work made of durable fabric. It has many pockets and compartments inside for easy organization of tools. The basket also has an adjustable strap, so you can hang it over your shoulder.

Technical data:

Weight:	0,98 kg
Dimensions:	270 x 270 x 210 mm
Material:	v
Capacity:	17 L

TA 309

Tool basket

Capacity

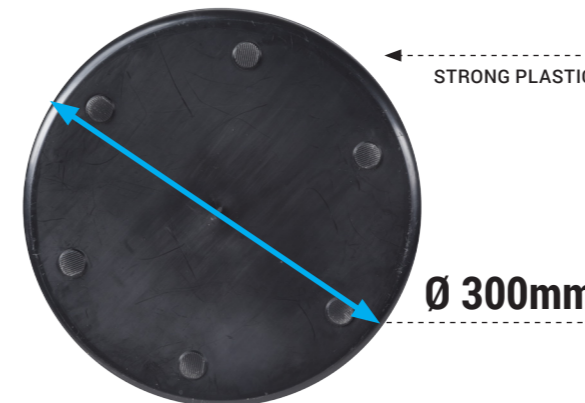

27 liters

Ref no.: **TA 309**

BIG BASKET WITH QUICK ACCESS TO DO TOOLS!

DURABLE FABRIC COVER

STRONG PLASTIC

Ø 300mm

Large tool basket for assembly work made of durable fabric. It has many pockets and compartments inside for easy organization of tools. The basket also has an adjustable strap, so you can hang it over your shoulder.

Technical data:

Weight:	1,5 kg
Dimensions:	300 x 300 x 310 mm
Material:	fabric
Capacity:	27 L

TA 310

Tool bag on wheels

Capacity
17 liters

Ref no.: **TA 310**

**HIGH PACKING
CAPACITY
AND PRACTICAL
ARRANGEMENT
TOOLS!**

Large and comfortable bag with wheels for transporting assembly accessories with a stiffening inside. Made of durable polyester. It has compartments inside and outside pockets, which makes it easier to organize tools properly. It is also equipped with a retractable telescopic handle, allowing for smooth movement.

Technical data:

Weight:	0,98 kg
Dimensions:	270 x 270 x 210 mm
Material:	fabric
Capacity:	17 L

TA 311

Tool bag attached to the belt

Capacity
2,7 liters

Ref no.: **TA 311**

Small tool bag attached to the belt. Useful when performing any assembly work, etc. It has a collar with a welt, for quick access to tools.

Technical data:

Weight:	280 g
Dimensions:	160 x 160 x 310 mm
Material:	PCV
Capacity:	2,7 L

TA 312

Tool bag attached to the belt

Capacity
9 liters

Ref no.: **TA 312**

Tool trolley fastened to the belt with a convenient zipper closure. Useful when performing any assembly work, etc. It has numerous tool holders and an internal mesh pocket.

Technical data:

Weight:	340 g
Dimensions:	180 x 180 x 300 mm
Material:	PCW
Capacity:	9 L

TA 313

Tool bag attached to the belt

Capacity
17 liters

Ref no.: **TA 313**

Spacious tool bag attached to the belt. Useful when performing any assembly work, etc. It has numerous tool handles and an internal mesh pocket.

Technical data:

Weight:	460 g
Dimensions:	300 x 180 x 350 mm
Material:	PCW
Capacity:	17 L
